Our vision is to give every person an opportunity to have a voice in identifying and addressing their needs; and to provide social connections, to fully develop their sense of self and community.  
Our mission is to help strengthen families and support children, teens, and adults impacted by trauma and adversity.

### PROGRAM DESCRIPTION

The Oasis Program offers individual, family, and group therapy to people who have been affected by incest and child sexual abuse. For our youngest clients, five and under, we provide assessment and treatment for families impacted by any type of child abuse or neglect. The Oasis program model strives to increase the healthy functioning of families who participate in the program, and help children and non-offending parents or caregivers incorporate the experience of the abuse into their lives in a manner that reduces the short-term and long-term effects, as well as the cycle, of abuse. A second goal of the program is to help non-offending parents and caregivers learn more effective and protective strategies to better parent their child and to strengthen their relationship. For families impacted by incest, we work to support the family through the reunification process in collaboration with other involved professionals. The Oasis Program offers a variety of treatment modalities including Trauma-Focused Cognitive Behavioral Therapy, Play Therapy, Child Parent Psychotherapy, and EMDR. Services are provided in English and Spanish, and interpretation for other languages is available. Currently all fees for services are covered under grant and contract funding.
