

Canopy Center

Job Announcement - Therapist

Come join us! We're looking for a therapist to provide individual and family therapy to children and non-offending caregivers who are affected by childhood sexual abuse and trauma.

About us:

Canopy Center is a non-profit agency located in Madison, Wisconsin that provides services to children and families in our community impacted by trauma and adversity.

Canopy Center's **Oasis** program offers individual, family, and group therapy to people who have been affected by incest and child sexual abuse. The Oasis program model strives to increase the healthy functioning of families who participate in the program by helping children and non-offending parents and caregivers incorporate the experience of the abuse into their lives, in a manner that reduces the effects of abuse and helps stop the cycle of abuse. A second goal of the program is to help non-offending parents and caregivers learn more effective and protective strategies to better parent their child and to strengthen their relationship. For families impacted by incest, we work to support the family through the reunification process in collaboration with other involved professionals. The Oasis program offers a variety of treatment modalities including Trauma-Focused Cognitive Behavioral Therapy, Play Therapy, Child Parent Psychotherapy, and EMDR. Currently all fees for services are covered under grant and contract funding. In addition, the Oasis program is proud to contribute to the education and learning of students training to become trauma-informed mental health providers through internship opportunities.
